SEPTEMBER 2024

SUPERSET WELCOMES 2024 COLLECTION

The **SuperSet**, the supplementary exhibition space adjacent to the Company Showroom, has been recently renovated to welcome the **2024 Collection**, reflecting its aesthetic and its stylistic theme with skilfully orchestrated combinations of materials and colours.

Distinctive perforated prism-shaped concrete walls define the spaces, highlighting the latest indoor and outdoor furnishing pieces - the result of an eclectic creativity that weaves together styles and visions of designers from different backgrounds.

At the entrance, two oases dedicated to the open-air world welcome visitors with shades of colour inspired by nature. Here are the **Amii** and **Daylight** seating systems, respectively by Nendo and the Italo-Danish duo GamFratesi, together with the **Trio Outdoor** armchairs by Marcio Kogan / Studio MK27 and the **Pattie Cord Outdoor** armchairs by Giampiero Tagliaferri.

Further on, the layout opens up into a large open space that flows seamlessly into the outdoor environment. Here, the modular **Supermoon** seating system by Giampiero Tagliaferri harmoniously complements the architecture of the fireplace, while the sculptural aesthetic of the **Nico** table by Hannes Peer makes a striking impression.

In the next area, on the other hand, accessible through two marble portals, the modular seating system **Yves** by Hannes Peer can be glimpsed, marked by an original combination of solid volumes and wavy lines with asymmetric stitching that enhance its forms.

From the living to the night area, the entire project expresses a contemporary reinterpretation of the home. The master bedroom, featuring the **Yves** bed, offers a unique vision of the space, completed by a relaxation corner to which the **Rayan** lounge table adds dynamism. Both pieces are designed by Hannes Peer.

The **SuperSet** is not just a display area, but also hosts an innovative TV studio designed to support trade and communication activities with A&D professionals, the press, and the public. A place where design comes to life, providing an authentic and immersive experience in the brand's lifestyle.
